- Created custom websites for various clients across industries.
- Enhanced problem-solving skills and adaptability through diverse projects.
- Delivered high-quality web solutions tailored to client needs.

Education

September 2021 - 2024
B.Sc Computer Science – *Udusok University, Nigeria.*

Certificates

Full Stack Software Development – *IBM*   [Certificate](#)
Blockchain Specialization – *University of Buffalo*   [Certificate](#)
React Development – *META*   [Certificate](#)
Programming in Python – *META*   [Certificate](#)
Django Web Framework – *META*   [Certificate](#)
SQL for Data Science – *University of California, Davis.*   [Certificate](#)
Developing applications with SQL, Database, and Django   – *Credly*   [Certificate](#)
Introduction to Back-end Development – *META*   [Certificate](#)
Server-Side Development with NodeJS, Express, and MongoDB –
Hong Kong University of Science and Technology   [Certificate](#)

Awards and Achievements

Hackathon Winner Level 4 – Earned by winning hackathon prizes –   *[Devpost](#)*
X Hackathons Level 9 – Earned by submitting separate eligible projects to separate hackathons   –   *[Devpost](#)*
Dual Boot – Earned by submitting an eligible project to an in-person hackathon –   *[Devpost](#)*
Generalist – Earned by submitting to 3 hackathons with different themes –   *[Devpost](#)*
Hackathon certificate of participation – Earned by submitting an eligible project to an in-person hackathon – *[Coding for SDG hacks](#), [Maple high school hacks](#), [BUILD'23 hacks](#), [Byte the web hacks](#)*.
